## INFORMATION SHEET – TABLET

1. Tablets are available to eligible DES Participants after commencing in DES services with Status.
2. Tablets may be issued to DES Participants based on their individual circumstances and job seeking requirements.
3. Not all Participants may receive Tablets based on their individual circumstances.
4. Participants are not obligated to remain with Status if they receive a Tablet.

Tablet provision is primarily designed to assist Participants who undertake our two-week Ready 2 Work Program which is designed to improve Digital Literacy skills. This program provides Participants with training and support to use technologies effectively for job searching and Centrelink reporting requirements as well as effective communication with Status staff members and potential employers.

Attendance in this program is not mandatory to be eligible for the provision of a Tablet. We will consider individual circumstances, including whether you already have personal access to a suitable device and/or whether you already have practical digital literacy skills.

Where gifted, the Tablet becomes the property of the Participant at no charge but any and all other costs will be the Participants responsibility.

As at 1 July 2018 the current Tablet is a "Samsung Galaxy TAB A 8.0" Wi-Fi 16GB. The brand and model of the Tablet to be supplied is subject to availability and may be substituted with a similar device and specification at Status' discretion. The Tablet is a Wi-Fi only device with no SIM card or lock-in contract. Status provides free Wi-Fi access to all Participants at all of its offices but assumes no responsibility for the internet costs outside of these locations. The provision of a tablet remains available for Status DES Participants while Status remains a current DES Provider.

## INFORMATION SHEET – MOBILE PHONE

1. Mobile phones are available to eligible DES Participants after commencing in DES services with Status.
2. Mobile phones may be issued to DES Participants based on their individual circumstances and job seeking requirements.
3. Not all Participants may receive mobile phones based on their individual circumstances.
4. Participants are not obligated to remain with Status if they receive a mobile phone.

Mobile phone provision is primarily to assist Participants who have found suitable ongoing employment. This enables Participants who may not have a mobile phone to remain in contact with Status so that Post Placement Support and Ongoing Support is available. Mobile phones may be gifted to Participants prior to employment to assist with job seeking and engagement with Status

The make, model and provision of a mobile phone is at Status' discretion and will be arranged between the Participant and supplier. Participants proof of identify will be required to be shown to the supplier before goods are released. The mobile phone is purchased outright by Status and includes a 'start-up' SIM card to the value of \$30 with no lock-in contracts. The mobile phone becomes the property of the Participant at no charge but any and all other ongoing costs will be the Participants responsibility. Status provides free Wi-Fi access to all Participants at all of its offices but assumes no responsibility for the internet outside of these locations. The provision of a mobile phone remains available for Status DES Participants while Status remains a current DES Provider.
